To Whom It May Concern:

Susan Young with Get in Front Communications was one of our workshop presenters for the 2006 Enterprising Women's Conference presented by the North San Antonio Chamber of Commerce on October 12, 2006.

First, she was a consummate professional. She provided us with her introduction, synopsis of her presentation, brief biography and properly formatted photograph on a timely basis. She, further, worked with us in marketing of the conference.

Second, her presentation, "Living Excellence: Moving from Mediocre to Magnificent," was a hit with our participants. The feed back that we received from both jam packed sessions was tremendous. It was interactive, inspiring, educational and humorous. I would highly recommend her as a speaker and would use her again in a heartbeat.
